

OPPORTUNITY – CORPORATE DEVELOPMENT INTERN

About Total EREN

- **Total EREN** is a global independent power producer, dedicated to renewable energy generation, mainly from wind and solar sources.
- EREN Group was created in France in 2012, by the ex-CEO and main shareholder of EDF-EN. The group developed in 15 years a portfolio of over 9 GW of wind power plants and 1 GW of solar power plants in the world.
- In seven years, EREN structured a portfolio of over 2.8GW of renewable energy assets under construction, operation and financing, and over 1.5GW of assets under development. Total EREN has renewable energy assets spread over Australia, India, Eastern and Southern Europe, Africa, Middle East and Latin America.

About Total EREN in Brazil

- **EREN do Brasil** is the local subsidiary of Total EREN, focusing on the development of renewable energy projects.
- In Brazil, the company's portfolio is composed by 300 MWp of renewable assets: 140 MWp PV plants already in operation (state of Bahia) and a 160 MW wind farms under construction (state of Rio Grande do Norte).
- Currently, the company is seeking to expand its business to both solar and wind power plants.

Job Description

The intern will assist in the management of Transversal Projects dedicated to the automation of internal processes and acceleration of the company's growth in Brazil, including:

- Support the **Business Intelligence strategy** (i.e. interactive dashboards, process interface between teams, mobile app for construction sites);
- Review the activities performed by different teams and **identify synergies and optimization opportunities**;
- Assist in the company's data management (i.e. financial, energy generation, corporate datasets);
- Prepare reports to the headquarters in France.

Beginning: as soon as possible.
Based in São Paulo

Requirements

- Engineering, Business or Economics student.
- Good interpersonal skills.
- Interest in working with renewable energy and energy efficiency.
- Interest in working with digital processes.
- Languages: Portuguese and English. French is a plus.
- Advanced Excel, Java and other programming languages are a plus;
