

Special American Chemical Society Meet-the-Editor Seminar

Terça feira 07 de outubro, 14:00-15:00 horas

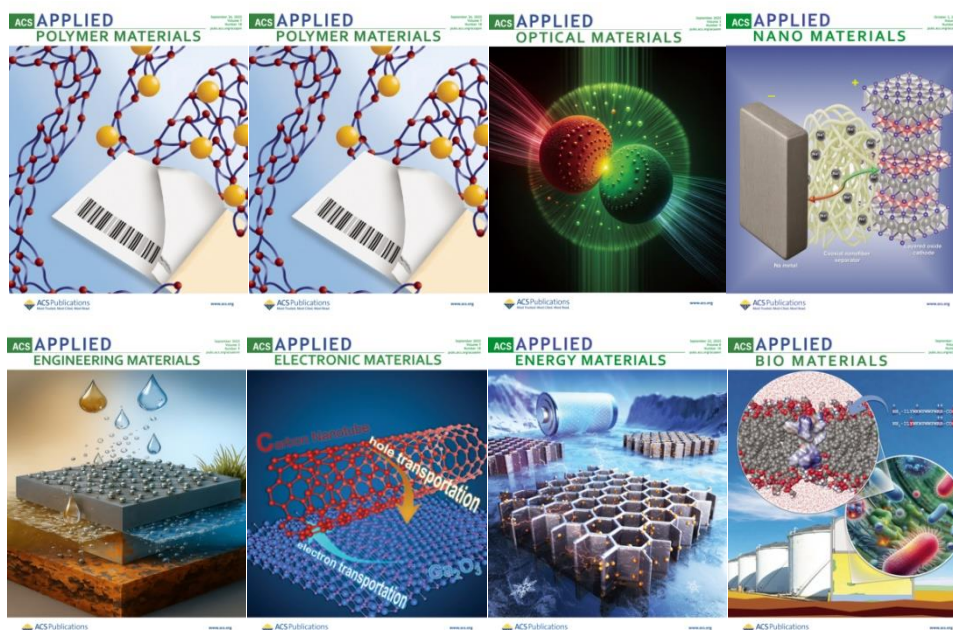

Anfiteatro, Bloco 6 Superior, IQ-USP

with

Dr. Xing Yi Ling

Professor of Chemistry, Nanyang Technological University, Singapore, and **Editor-in-Chief** of **ACS Applied Materials & Interfaces**, the portfolio encompassing the eight ACS journals focused on materials, interfacial processes, and their applications:

Dr. Ling's seminar will be divided into a brief overview of her research, followed by her thoughts on scientific publication from the perspective of an editor-in-chief and active international researcher. Dr. Ling's primary research interests focus on fundamental studies and applications employing nanotechnology in the environmental and healthcare fields, in particular the self-assembly of shape-controlled metal nanoparticles and novel applications in SERS.
